ALIGN, EDUCATE, GROW. *INTELLIGENTLY.*

PARTNER WITH ASA HEALTH CARE SOLUTIONS

American Society of Anesthesiologists®

Efficiently drive engagement, influence, & knowledge across your enterprise.

ASA Health Care Solutions collaborates with hospitals, healthcare systems, and group practices to enhance operational efficiency, integrate best-in-class education, and apply data-driven strategies to **accelerate business growth**.

Explore these solutions and contact us to begin your tailored program.

Payment & practice essentials

Navigate staffing pressures, optimize coding, and advance revenue cycle operations.

- **CROSSWALK®**—Provides guidance for aligning surgical CPT® codes to the correct anesthesia CPT codes, mapping accurate selection even when no direct match is clear. With ASA guidance and detailed clinical descriptors, it helps standardize coding across teams and locations while reducing variability and audit risk.
- **Relative Value Guide® (RVG™)**—A reliable reference for ASA base units, anesthesia CPT codes, and essential reporting guidance in OR and non-OR environments. It supports accurate time-based billing, clear modifier and start/stop time reporting, and simplified guidance for complex scenarios like labor and delivery.

Clinical guidance

Evidence-based positions and innovative digital tools foster consistency, compliance, and adherence to best practices at the point of care.

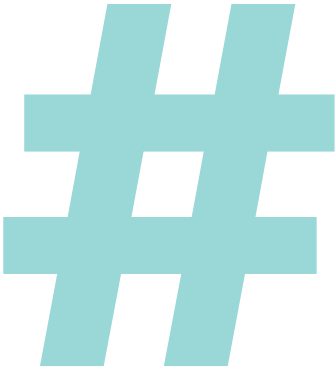

- **Standards, guidelines, and statements**—Access comprehensive practice-defining clinical and operational resources that define best practices and support consistent decision-making across your organization.
- **BeaconBot search**—Quickly retrieve relevant insights from *Anesthesiology*® and ASA materials that are not readily available for public search.
- **ORAC-NORA**—Coming soon! A new certificate program using set criteria to standardize services and assist anesthesiologists in establishing resources, policies, and procedures for optimizing NORA locations.
- **Centralized Membership**—Ensure every anesthesiologist has uninterrupted access to the latest clinical guidance, standards, and tools with simple, centralized invoicing for ASA membership dues.

Practice-powering education

Support lifelong learning with flexible, high-value education that strengthens clinical skills, supports compliance, and promotes top-quality care.

- **NEW! ASA PLUS**—A personalized learning subscription offering short-form videos, top sessions from ANESTHESIOLOGY® annual meeting and ASA® ADVANCE, and continually-updated original content.
- **Education Libraries**—Flexible, value-based ASA education tailored to meet the needs of your teams.
- **PeRLS Certificate**—A focused alternative for anesthesia professionals, the Perioperative Resuscitation and Life Support Certificate includes a Physical Resuscitation module to meet both BLS and ACLS requirements.
- **Diagnostic POCUS Certificate Program**—Expand bedside diagnostic capabilities while earning CME and ABA MOCA® QI points as learners move through four key organ systems: cardiac, lung, gastric, and FAST exam content.
- **Anesthesia Toolbox**—Engage in collaborative learning for residents and faculty. Quizzes, lectures, case guides, and simulation resources close knowledge gaps.

Better care through data

Richer, more actionable data with the Anesthesia Quality Institute's NACOR® + Anesthesia Community Registry (ACR), powered by Epic—simplify reporting, strengthen benchmarking, and reduce administrative burden.

- **Automatically standardize and stream EHR data to ACR and NACOR**—Reduce manual work, increase granularity, and improve accuracy through Epic and AQI support.
- **Expand reporting, benchmarking, and analytics**—Quickly populate reports, forms, research requests, and submissions with detailed clinical and operational data while identifying opportunities for improvement.
- **Deliver more valuable, actionable insights**—Benchmark performance, identify outliers, enhance efficiency, support stipend negotiations, and analyze risk-adjusted measures and outcomes.
